Register a free business account If you are a seller for this product, would you like to suggest updates through seller support To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Jorgelina 1.0 out of 5 stars The key sheet is poorly written and there are a lot of typos. No answers to the even problems, and since the numbers arent in the right sequence, it takes some time to figure out the answer that goes with each problem. Complete waste of money.I had hoped it would provide more details, but its identical.If Im doing something wrong, I can rely on the Answer guide to tell me, and show me how to do it right.It would be great for review if someone had learned the material previously, but for brand new calculus students, this textbook is written with excessive jargon and too little explanation.Glad i only paid a small price for it.Sorry, we failed to record your vote.
